Commercial Revit Naming Cheat Sheet

Views · Sheets · Families · Worksets · Files — one-page desk reference

Print US Letter · keep by your monitor
Full standards + Excel tables:
robinwolfson.github.io/zero-waste-drafting

Client standards win when they conflict. View names = people in the model; sheet titles = people reading drawings. Always fill **Title on Sheet**.

1. Views

`[DISC] - [LEVEL] - [PURPOSE] - [QUALIFIER]`

Space-hyphen-space · UPPERCASE · `L01` `B1` `MZ` `RF` `SITE`

View name (browser)	Title on Sheet
`A - L01 - FLOOR PLAN`	LEVEL 01 FLOOR PLAN
`A - L01 - RCP`	LEVEL 01 REFLECTED CEILING PLAN
`EL - L02 - LIGHTING PLAN - AREA B`	LEVEL 02 LIGHTING PLAN - AREA B
`EL - L02 - LTG CONTROLS - AREA B`	LEVEL 02 LIGHTING CONTROLS…
`EP - L01 - POWER PLAN`	LEVEL 01 POWER PLAN
`M - L03 - HVAC PLAN`	LEVEL 03 HVAC PLAN
`A - ELEV - NORTH`	NORTH ELEVATION

Working (never on sheets): `WIP-[INITIALS]` · `COORD` · `EXPORT` · `3D`. No dates/FINAL; no `/` `"`; rename "Copy 1". Codes: `A` `I` `S` `M` `P` `FP` `E` `EL` `EP` `T` `G`

2. Sheets (NCS-style)

`[DISC]-[TYPE][NN]` → `A-101, E-601`

UPPERCASE. Sheet name = main view Title on Sheet. Leave gaps; never reuse a deleted number same issue.

COVER · `G-002` · `E-101` ltg · `E-121` pwr · `A-301` · `A-501` FIXTURE SCHEDULE

Type	Use	Examples
0	Cover / index / symbols	`G-001`
1	Plans	`A-101`
2/3	Elevations / sections	`A-201`
4/5	Enlarged / details	`A-401`
6	Schedules & diagrams	`E-601`

Ranges: floors 101… · RCPs 121… · lighting/controls/power separate. Client two-letter codes (e.g. `EL-101`) win. Sheets often NCS `E/F`; views/worksets readable `EL/EP/FP`.

3. Families

`[CAT]_[FUNCTION]_[DESCRIPTOR]_[SOURCE]`

Underscores between · hyphens inside · mixed case · Type Mark = schedule letter

Family	Type example
`LF_Troffer-Recessed_2x4_Generic`	`24x48in - 4000K - 4000lm`
`LD_Sensor-Occupancy_Ceiling-360_Generic`	Dual Technology
`EE_Panelboard_Surface_Generic`	`208Y-120V - 42 Circuit`
`DR_Single-Flush_Hollow-Metal`	`36x84in`
`TB_ARCH-D_24x36_ZWD`	Standard
`AN_Tag-Lighting-Fixture_Type-Mark`	Standard

Cats: `LF` `LD` `EE` `EF` `DR` `WN` `FN` `ME` `PF` `SE` `TB` `AN` `DI` `PR`. Rename mfr downloads; maker in `SOURCE` (e.g. `_Acuity`).

4. Worksets

`[DISC]_[CONTENT]`

Short list, same every project. Rename `Workset1`. Graphics via styles/filters/templates—not worksets.

/ `A_Interiors` · `M_HVAC` · `P_Plumbing` · `FP_Fire Protection` · `E_Lighting Controls` · `E_Power` · `LINK_STRUC` · `LINK_MEP` · `LINK_CAD`

Workset	Contents
Shared Levels and Grids	Levels, grids, shared refs
`A_Core and Shell`	Shell vs interiors
`S_Structure`	Discipline model
`E_Lighting`	Electrical splits
`LINK_ARCH`	One per link
`Z_Scope Boxes and Reference`	Scope boxes, matchlines

Check active workset before placing. Sync + relinquish end of day.

5. Project & export files

· `…-RW.rvt`

Item	Pattern / example	Notes
Template	`ZWD-Commercial-Template-R2026-v1.2.rte`	Central: `[CLIENT]-[BLDG]-[DISC]-Central-R[YYYY].rvt` · Local adds `-[INITIALS]`
Central / local	`ACME-HQ-EL-Central-R2026.rvt`	
Sheet PDF/DWG	`E-101_LEVEL 01 LIGHTING PLAN.pdf`	No `\ / : * ? " < > |` in export names. Full pack (Excel naming tables, 14-step setup, QA checklist) on the website.
